Post-Hurricane Florence Temporary, Portable Storage Containers (TPSC) on BHI

In the wake of Hurricane Florence, many property owners dealing with storm-related home damages from wind, rain and/or flooding may need the use of a temporary storage facility during cleanup and repairs.

Temporary, portable storage containers (brand names such as PODS, PACK-RAT and U-PACK) have been approved for use on Bald Head Island by both the Bald Head Association (BHA) Board of Directors and the Village of BHI, with some parameters.

Allowing TPSCs on Bald Head Island is in response to storm-related issues following Hurricane Florence and is not a permanent policy on using TPSCs.

Who To Contact With Questions:

ARC Coordinator
Karen Mosteller

Parameters

- Temporary, portable storage containers (TPSC) must be located in homeowner's driveway.
- For an alternative location on a homeowner's lot, contact Karen at ARC.
- No regulated trees or understory can be impacted due to the TPSC location.
- TPSCs are NOT ALLOWED in the Village right of way.
- TPSCs cannot block alleyways.
- TPSCs cannot obstruct ingress/egress of property for public safety access.
- TPSCs are allowed on the property for a maximum of 90 days. If necessary, an extension for up to 90 additional days may be requested.
